SUBJECT: Master Plan Process

1. BACKGROUND/HISTORY

A Master Plan is the only public document that describes the community as a whole. It is a policy statement that outlines long term goals and a guide to short term decisions. It provides an assessment of the community needs and can be a blueprint for the community's physical development. The Master Plan is a public document adopted by government with full input from the community and is continually adopted as conditions change..

The City of Windcrest currently does not have an approved Master Plan. A Draft Conceptual Plan was developed in 2007 but not adopted.

The City of Windcrest is now re-examining the need to plan comprehensively for the future and has tasked the Planning and Zoning Commission with implementing this task.

2. FINDINGS/CURRENT ACTIVITY

On June 20, 2013 the Planning and Zoning Commission met to discuss the Comprehensive Planning Process and develop a work program for completion. During that Workshop, the Commissioners heard about the various types of Master Plans adopted by communities. They discussed the need for simplicity in approach and the flexibility in having the Master Plan grow with the City and its goals. They decided to use the General Plan concept as its model.

The General Plan outlines the scope of the community Vision with goals, objectives, and basic maps. Attachment 1 is provided for consideration as a first draft of the Windcrest General Plan to be used as a blueprint for preparation. The Draft presented is based on input by the Commission made in workshops during the Summer, 2013.

The contents of the General Plan are as follows:

- 1) **Vision**—how do we see Windcrest in the future?
- 2) **Guiding Principles**—our values and philosophy for insuring that the City grows in the manner agreed upon by the community through their participation.
- 3) The Draft General Plan provides for three major **Goals** agreed upon by the Commission-- Growth Management, Economic Development and Community Identity.

- 4) Each Goal in turn has a series of **Policies** that must be implemented for achieving that Goal.
- 5) Along with the Policies, **Action Plan/Task** statement(s) for implementation will be prepared by staff in collaboration with City Council during its policy deliberations.

These will be the guiding tenets for staff as approved by the City Council and budgeted for future work programs as the Master Plan is carried out over time.

On January 6, 2014 the Draft General Plan was forwarded to City Council for preliminary review. At that time, it was agreed that the Windcrest community go forward with the process. (Addendum One)

The City Council established a Master Plan Review Committee (MPRC) made up of Windcrest community residents and business owners to further develop the Policies and related Action Plan components.

The MPRC held a series of community workshops in Spring, 2014 to insure that the Draft meets the intent and spirit of the Windcrest Vision. They followed with a series of several meetings from May to June to refine the PZ draft. The MPRC then presented their findings to the Commission on July 2 and met again on July 17. (See attached MPRC packet –Addendum Two--for full history of process.)

The Commission then met on Saturday, July 26, 2014 in workshop mode to develop the final draft.

The Planning and Zoning Commission presented and discussed their Final Draft of the Master Plan on August 7, 2014.

In accordance with Chapter 23 a Public hearing is being held today prior to forwarding to City Council for consideration.

The Master Plan Draft, prepared by the Planning and Zoning Commission and attached hereto is offered for consideration and formal recommendation to the City Council as approved by process January, 2014.

RESOLUTION NO. 2014-001PZ (R)

**A RESOLUTION RECOMMENDING A MASTER PLAN FOR THE
ORDERLY DEVELOPMENT OF THE COMMUNITY**

WHEREAS, Chapter 23 of the City Code of the City of Windcrest authorizes the Planning and Zoning Commission to prepare a Land Development Plan and related Community Plans as a comprehensive plan to insure the orderly and desirable development of the City of Windcrest; and

WHEREAS, the Planning and Zoning Commission met in 2013 in a series of workshops and formal meetings to develop a DRAFT Master Plan to forward to the City Council for review, with a recommendation to seek public input; and

WHEREAS, the City Council approved a public input process in January, 2014 and appointed a Master Plan Review Committee to insure community involvement; and

WHEREAS, the Master Plan Review Committee held a series of community workshops and met as a Committee to review the Planning and Zoning Commission DRAFT Master Plan; and

WHEREAS, the Commission and Committee met in open session to discuss possible revisions to the DRAFT Master Plan; and

WHEREAS, the Planning and Zoning Commission met and developed a final version for submission to the City Council for review and further public consideration.

NOW, THEREFORE BE IT RESOLVED by the Planning and Zoning Commission of the City of Windcrest, Texas, that:

- 1) The Planning and Zoning Commission forward the final version of the Master Plan to the City Council for consideration after a public hearing thereon.
- 2) The Planning and Zoning Commission formally recognizes and thanks the members of the Master Plan Review Committee for their time and dedication to this task for the City of Windcrest's positive future direction.

DULY PASSED AND APPROVED, on the _____ day of _____, 2014 at a regular meeting of the Planning and Zoning Commission of the City of Windcrest, Texas, which meeting was held in compliance with the Open Meetings Act, Tex. Gov't. Code, §551.001, et. seq. at which meeting a quorum was present and voting.

ATTEST:

Dear Member of the Master Plan Review Committee,

On behalf of the Planning and Zoning Commission, I want to thank you for your tireless work as a member of the Windcrest Master Plan Committee.

We know that your task as a representative of outlining the tenets of Windcrest's future was not easy. We understand the countless hours spent with residents at the neighborhood workshops and then meeting during the course of the Summer to prepare your Draft of the Master Plan were done with the utmost spirit of wanting to do what is right for all.

Thank you for your commitment, patience and diligence in this effort in your revising of the Draft Plan we prepared over a year ago. It is stronger and more relevant because of your participation and allowing for community dialogue.

We will continue that effort in holding a public hearing and then forwarding to City Council for their final review and hearings as well.

WINDCREST

INTRODUCTION

Every city is different. Each a mixture of old and new homes, shopping centers, markets, shaded walkable streets, and busy commercial corridors. Whatever the combination, it is still a collection of people. People with different tastes, interests and resources who have settled in that special geographic area because they found employment, schools for their children or a place to retire.

What makes it a community and differentiates itself from other places is its economic condition, culture and its history. These factors and more affect the nature of a community. However, the one pivotal factor that makes a difference is the extent to which the community has guided the use and development of its environment through a Master Plan.

A Master Plan helps a community effect its growth and development. As a balance, it can be an important tool to prevent degradation of resources, maintain the commercial and economic base, provide good public facilities or improve housing stock and infrastructure.

PURPOSE

The Master Plan is the only public document that describes the community as a whole in terms of its complex and mutually supporting networks.

As a policy statement of long-term goals, it provides both a broad long-term perspective and a guide to short-term community decisions.

A Master Plan is prepared and implemented with an eye to:

- Influence and manage the development of the community;
- Coordinate public and private investment;
- Minimize conflict between land uses;
- Increase both the benefits and cost-effectiveness of public investment;

GENERAL PLAN

- Forecast and ensure that infrastructure and community facilities are established in advance of demand and located to best serve the community.

Master plans provide the basis for rational decision making but do not replace the decision-making process, nor take the place of the City's codes and other ordinances in establishing regulations. In applying such regulations, consideration should be given to the principles, goals and policies of the Master Plan.

The Master Plan is intended to provide guidance in the evaluation of future decisions on land use, infrastructure improvements, transportation and other issues. In addition, ordinances proposed and considered after the Master Plan adoption should be consistent with the relevant goals and policies contained in the Plan. If an ordinance establishing or modifying rules or regulations is being considered contrary to the goals and policies of the Plan, either the Plan should be reviewed and amended prior to the adoption of the ordinance, or it should clearly state those circumstances that necessitate its conflict with the Plan.

Community planning is a continuous and dynamic process. It helps the community achieve goals important to its citizens and the community at large. Over time, these goals will likely change. At that time the community must again review where they have been, how they got there and what has changed and where they want to go next.

The Planning and Zoning Commission should perform an annual review of the Master Plan principles, goals and policies and forward recommendations for amendments to the Plan to the City Council. The Commission should also prepare an annual report on development and planning activities. The report should indicate changes in current trends and appropriate laws and regulations, include recommendations for changes to the Master Plan's implementation and evaluate the City's progress.

GENERAL PLAN

VISION

The City of Windcrest promotes a high quality of life, balancing neighborhood stability, economic opportunity and responsible growth.

GUIDING PRINCIPLES

- Preserve, protect and enhance the integrity, economic viability and livability of Windcrest's neighborhoods.
- Promote economic diversity and jobs creation.
- Encourage a balance of new development and redevelopment.
- Support the implementation of the Parks and Recreation Open Space Master Plan, adopted July 25, 2012 (Resolution 2012-385 R).
- Provide an environment for the positive community input and collaboration in attaining the Master Plan Goals and Policies.

Realizing both the Vision and Guiding Principles require clear attainable Goals that address basic issues for Windcrest. Policies for attaining the goals must direct the City's planning and implementation strategies.

The key is to create goals and policies that Windcrest can use to measure its progress in fulfilling the vision for the future.

These goals and policies are dynamic. It is important that the entire community, citizens and organizations continue to share their ideas regarding the future.

PUBLIC INVOLVEMENT

WORK SESSIONS

MASTER PLAN REVIEW COMMITTEE PROCESS

On June 20, 2013 the Planning and Zoning Commission met to discuss the Comprehensive Planning Process and develop a work program for completion. During that Workshop, the Commissioners heard about the various types of Master Plans adopted by communities. They discussed the need for simplicity in approach and the flexibility in having the Master Plan grow with the City and its goals. They decided to use the Master Plan concept as its model.

The contents of the Plan are as follows:

- 1) Vision - how do we see Windcrest in the future?
- 2) Guiding Principles—our values and philosophy for insuring that the City grows in the manner agreed upon by the community through their participation.
- 3) The Draft Master Plan provides for three major Goals agreed upon by the Commission—Growth Management, Economic Development and Community Identity.
- 4) Each Goal in turn has a series of Policies that must be implemented for achieving that Goal.
- 5) Along with the Policies, a detailed Action Plan/Task statement for implementation must be prepared.

These will be the guiding tenets for staff as approved by the City Council and budgeted for future work programs as the General Plan is carried out over time.

The Commission approved the Draft Master Plan outline and concept and forwarded it to City Council for community review and preparation.

At that time, the City Council established a Master Plan Review Committee (MPRC) made up of Windcrest community residents and business owners to further develop the goals and related components.

As appointees of the City Council, the MPRC was comprised of residents from several areas of the City representing a variety of neighborhoods, businesses and other stakeholders. The MPRC may also had representatives from key boards and commissions. The Committee was chaired by Mayor Pro-tem Pam Dodson. (See Roster Attachment 1)

It was the responsibility of each Committee member to communicate with their constituencies as the Planning process goes forward.

In the initial phase, the MPRC held three community workshops to promote full input of ideas and opportunities. These were done April 16, 17 and 19. (See Appendix One)

The MRPC then held a series of public meetings to insure that the Draft meets the intent and spirit of the Windcrest Vision. These meetings were held, May 7, 22, June 4, 18 and 25 and July 2. (See Appendix Two)

The Committee reported its findings to the Planning and Zoning Commission on July 2 holding a joint meeting to outline their Draft and meeting again on July 17. (See Attachment 2).

The Master Plan Review Committee committed countless hours to this process ensuring collaboration and full opportunities for community input.

City of Windcrest — General Plan

Background Information

General Plan Approach

The proposed general plan is substantially different from the last master plan effort in Windcrest. First, the current plan describes a vision and articulates principles, areas of focus, goals and policies to achieve that vision over time, rather than employing graphics to depict what a future community should look like. Second, rather than relying on outside professionals to do the work, the current effort engages the mayor and city council, planning and zoning commission, a plan review committee and citizens and stakeholders to collaboratively develop the general plan.

General Plan Development Process

During 2013 the Windcrest Planning and Zoning Commission developed the current draft general plan. In March 2014 City Council appointed a Master Plan Review Committee (MPRC) to solicit input from citizens and stakeholders and to oversee refinements to the draft general plan.

General Plan Elements

The draft general plan lays out policies to guide both short- and long-term decisions about Windcrest's development. The draft plan contains the following elements:

- introduction and purpose -vision statement
- guiding principles -areas of focus
- goals and policies

Schedule for Citizen and Stakeholder Work Sessions

The MPRC is conducting three identical, facilitated work sessions for citizens and stakeholders at the Windcrest City Hall Council Chambers:

Wednesday, April 16, 2014, 6:00 p.m. — 7:45 p.m.

Thursday, April 17, 2014, 6:00 p.m. — 7:45 p.m.

Saturday, April 19, 2014, 9:30 a.m. — 11:15 a.m.

Work Sessions Follow-Up

The Master Plan Review Committee will use the results from the three work sessions to revise the draft general plan. The revised draft plan will be reviewed and recommended for approval by the Planning and Zoning Commission and then approved by the City Council; in each case public hearings will be conducted to seek input from citizens and stakeholders. This process will occur over the coming months with the eventual adoption of the general plan expected during summer 2014.

GENERAL PLAN

WINDCREST

INTRODUCTION

Every city is different. Each a mixture of old and new homes, shopping centers, markets, shaded walkable streets, and busy commercial corridors. Whatever the combination, it is still a collection of people. People with different tastes, interests and resources who have settled in that special geographic area because they found employment, schools for their children or a place to retire.

What makes it a community and differentiates itself from other places is its economic condition, culture and its history. These factors and more affect the nature of a community. However, the one pivotal factor that makes a difference is the extent to which the community has guided the use and development of its environment through a Master Plan.

A Master Plan helps a community affect its growth and development. As a balance, it can be an important tool to prevent degradation of resources, maintain the commercial and economic base, provide good public facilities or improve housing stock and infrastructure.

PURPOSE

The Master Plan is the only public document that describes the community as a whole in terms of its complex and mutually supporting networks.

As a policy statement of long-term goals, it provides both a broad long-term perspective and a guide to short-term community decisions.

A Master Plan is prepared and implemented with an eye to:

- Influence and manage the development of the community;
- Coordinate public and private investment;
- Minimize conflict between land uses;
- Increase both the benefits and cost-effectiveness of public investment;

GENERAL PLAN

- **Forecast and ensure that infrastructure and community facilities are established in advance of demand and located to best serve the community.**

Master plans provide the basis for rational decision making but do not replace the decision-making process, nor take the place of the City's codes and other ordinances in establishing regulations. In applying such regulations, consideration should be given to the principles, goals and policies of the Master Plan.

The Master Plan is intended to provide guidance in the evaluation of future decisions on land use, infrastructure improvements, transportation and other issues. In addition, ordinances proposed and considered after the Master Plan adoption should be consistent with the relevant goals and policies contained in the Plan. If an ordinance establishing or modifying rules or regulations is being considered contrary to the goals and policies of the Plan, either the Plan should be reviewed and amended prior to the adoption of the ordinance, or it should clearly state those circumstances that necessitate its conflict with the Plan.

Community planning is a continuous and dynamic process. It helps the community achieve goals important to its citizens and the community at large. Over time, these goals will likely change. At that time the community must again review where they have been, how they got there and what has changed and where they want to go next.

The Planning and Zoning Commission should perform an annual review of the Master Plan principles, goals and policies and forward recommendations for amendments to the Plan to the City Council. The Commission should also prepare an annual report on development and planning activities. The report should indicate changes in current trends and appropriate laws and regulations, include recommendations for changes to the Master Plan's implementation and evaluate the City's progress.

GENERAL PLAN

VISION

The City of Windcrest promotes a high quality of life, balancing neighborhood stability, economic opportunity and responsible growth.

GUIDING PRINCIPLES

- **Support the implementation of the Parks and Recreation Open Space Master Plan, adopted July 25, 2012 (Resolution 2012-385 R).**
- **Provide an environment for the positive community input and collaboration in attaining the Master Plan Goals and Policies.**

The Vision and Guiding Principles require clear attainable Goals that address basic issues for Windcrest. Policies for attaining the goals must direct the City's planning and implementation strategies.

The key is to create goals and policies that Windcrest can use to measure its progress in fulfilling the vision for the future.

These goals and policies are dynamic. It is important that the entire community, citizens and organizations continue to share their ideas regarding the future.

WINDCREST TEXAS

August 7, 2014

SUBJECT: Master Plan Process

1. BACKGROUND/HISTORY

A Master Plan is the only public document that describes the community as a whole. It is a policy statement that outlines long term goals and a guide to short term decisions. It provides an assessment of the community needs and can be a blueprint for the community's physical development. The Master Plan is a public document adopted by government with full input from the community and is continually adopted as conditions change..

The City of Windcrest currently does not have an approved Master Plan. A Draft Conceptual Plan was developed in 2007 but not adopted.

The City of Windcrest is now re-examining the need to plan comprehensively for the future and has tasked the Planning and Zoning Commission with implementing this task.

2. FINDINGS/CURRENT ACTIVITY

On June 20, 2013 the Planning and Zoning Commission met to discuss the Comprehensive Planning Process and develop a work program for completion. During that Workshop, the Commissioners heard about the various types of Master Plans adopted by communities. They discussed the need for simplicity in approach and the flexibility in having the Master Plan grow with the City and its goals. They decided to use the General Plan concept as its model.

The General Plan outlines the scope of the community Vision with goals, objectives, and basic maps. Attachment 1 is provided for consideration as a first draft of the Windcrest General Plan to be used as a blueprint for preparation. The Draft presented is based on input by the Commission made in workshops over the Summer, 2013.

The contents of the General Plan are as follows:

- 1) **Vision**—how do we see Windcrest in the future?
- 2) **Guiding Principles**—our values and philosophy for insuring that the City grows in the manner agreed upon by the community through their participation.
- 3) The Draft General Plan provides for three major **Goals** agreed upon by the Commission-- Growth Management, Economic Development and Community Identity.

- 4) Each Goal in turn has a series of **Policies** that must be implemented for achieving that Goal.
- 5) Along with the Policies, a detailed **Action Plan/Task** statement for implementation must be prepared.

These will be the guiding tenets for staff as approved by the City Council and budgeted for future work programs as the General Plan is carried out over time.

On November 18, the Draft General Plan was forwarded to City Council for preliminary review. At that time, it was agreed that the Windcrest community go forward with the process.

The City Council shall established a Master Plan Review Committee (MPRC) made up of Windcrest community residents and business owners to further develop the Policies and related Action Plan components.

The MPRC held a series of community workshops in Spring, 2014 to insure that the Draft meets the intent and spirit of the Windcrest Vision. They followed with a series of several meetings from May to June to refine the PZ draft. The MPRC then presented their findings to the Commission on July 2 and met again on July 17. (See attached MPRC packet for full history of process.)

The Commission then met on Saturday, July 26, 2014 in workshop mode to develop the final draft.

Today the Planning and Zoning Commission presents their Final Draft of the Master Plan and will set a calendar for public review and Public hearing prior to forwarding to City Council for consideration.

The Master Plan Draft, prepared by the Planning and Zoning Commission and attached hereto is offered for consideration.

WINDCREST MASTER PLAN

INTRODUCTION

Every city is different. Each a mixture of old and new homes, shopping centers, markets, shaded walk-able streets, and busy commercial corridors. Whatever the combination, it is still a collection of people; People with different tastes, interests, and resources who have settled in that special geographic area because they found employment, schools for their children, or a place to retire.

What makes it a community, and differentiates itself from other places, is its economic condition, culture, and its history. These factors and more affect the nature of a community. However, the one pivotal factor that makes a difference is the extent to which the community has guided the use and development of its environment through a Master Plan.

A Master Plan helps a community affect its growth and development. As a balance, it can be an important tool to prevent degradation of resources, maintain the commercial and economic base, provide good public facilities, or improve housing stock and infrastructure.

PURPOSE

The Master Plan is the only public document that describes the community as a whole, in terms of its complex and mutually supporting networks.

As a policy statement of long-term goals, it provides both a broad long-term perspective and a guide to short-term community decisions.

A Master Plan is prepared and implemented with an eye to:

- Influence and manage the development of the community;
- Coordinate public and private investment;
- Minimize conflict between land uses;
- Increase both the benefits and cost-effectiveness of public investment;
- Forecast and ensure that infrastructure and community facilities are established in advance of demand and are located to best serve the community.

WINDCREST MASTER PLAN

Master plans provide the basis for rational decision-making, but do not replace the decision-making process, nor take the place of the City's codes and other ordinances in establishing regulations. In applying such regulations, consideration should be given to the principles, goals, and policies of the Master Plan.

The Master Plan is intended to provide guidance in the evaluation of future decisions on land use, infrastructure improvements, transportation, and other issues. In addition, ordinances proposed and considered after the Master Plan adoption should be consistent with the relevant goals and policies contained in the Plan. If an ordinance establishing or modifying rules or regulations is being considered contrary to the goals and policies of the Plan, either the Plan should be reviewed and amended prior to the adoption of the ordinance, or the ordinance should clearly state those circumstances that necessitate its conflict with the Plan.

Community planning is a continuous and dynamic process. It helps the community achieve goals important to its citizens and the community at large. Over time, these goals will likely change. At that time, the community must again review where they have been, how they got there, what has changed, and where they want to go next.

The Planning and Zoning Commission should perform an annual review of the Master Plan principles, goals, and policies and forward recommendations for amendments to the Plan to the City Council. The Commission should also prepare an annual report on development and planning activities. The report should indicate changes in current trends and appropriate laws and regulations, include recommendations for changes to the Master Plan's implementation, and evaluate the City's progress.

WINDCREST MASTER PLAN

VISION

The City of Windcrest promotes, in this order, a high quality of life, neighborhood stability, economic opportunity, and responsible growth.

GUIDING PRINCIPLES

- Preserve, protect, and enhance the integrity and livability of Windcrest's neighborhoods.
- Promote both economic diversity and viability for residents and businesses.
- Continue to provide an environment that encourages community input and collaboration in developing the direction of the City of Windcrest.

Realizing both the Vision and Guiding Principles require clear attainable Goals that address basic issues for Windcrest. Policies for attaining the goals must direct the City's planning and implementation strategies.

The key is to create goals and policies that Windcrest can use to measure its progress in fulfilling the vision for the future.

These goals and policies are dynamic. It is important that the entire community, citizens and organizations, continue to share their ideas regarding the future.

MASTER PLAN REVIEW COMMITTEE PROCESS

On June 20, 2013 the Planning and Zoning Commission met to discuss the Comprehensive Planning Process and develop a work program for completion. During that Workshop, the Commissioners heard about the various types of Master Plans adopted by communities. They discussed the need for simplicity in approach and the flexibility in having the Master Plan grow with the City and its goals. They decided to use the Master Plan concept as its model.

The contents of the Plan are as follows:

- 1) Vision - how do we see Windcrest in the future?
- 2) Guiding Principles—our values and philosophy for insuring that the City grows in the manner agreed upon by the community through their participation.
- 3) The Draft Master Plan provides for three major Goals agreed upon by the Commission—Growth Management, Economic Development and Community Identity.
- 4) Each Goal in turn has a series of Policies that must be implemented for achieving that Goal.
- 5) Along with the Policies, a detailed Action Plan/Task statement for implementation must be prepared.

These will be the guiding tenets for staff as approved by the City Council and budgeted for future work programs as the General Plan is carried out over time.

The Commission approved the Draft Master Plan outline and concept and forwarded it to City Council for community review and preparation.

At that time, the City Council established a Master Plan Review Committee (MPRC) made up of Windcrest community residents and business owners to further develop the goals and related components.

As appointees of the City Council, the MPRC was comprised of residents from several areas of the City representing a variety of neighborhoods, businesses and other stakeholders. The MPRC may also had representatives from key boards and commissions. The Committee was chaired by Mayor Pro-tem Pam Dodson. (See Roster Attachment 1)

It was the responsibility of each Committee member to communicate with their constituencies as the Planning process goes forward.

In the initial phase, the MPRC held three community workshops to promote full input of ideas and opportunities. These were done April 16, 17 and 19. (See Appendix One)

The MRPC then held a series of public meetings to insure that the Draft meets the intent and spirit of the Windcrest Vision. These meetings were held, May 7, 22, June 4, 18 and 25 and July 2. (See Appendix Two)

The Committee reported its findings to the Planning and Zoning Commission on July 2 holding a joint meeting to outline their Draft and meeting again on July 17. (See Attachment 2).

The Master Plan Review Committee committed countless hours to this process ensuring collaboration and full opportunities for community input.

City of Windcrest — General Plan Background Information

General Plan Approach

The proposed general plan is substantially different from the last master plan effort in Windcrest. First, the current plan describes a vision and articulates principles, areas of focus, goals and policies to achieve that vision over time, rather than employing graphics to depict what a future community should look like. Second, rather than relying on outside professionals to do the work, the current effort engages the mayor and city council, planning and zoning commission, a plan review committee and citizens and stakeholders to collaboratively develop the general plan.

General Plan Development Process

During 2013 the Windcrest Planning and Zoning Commission developed the current draft general plan. In March 2014 City Council appointed a Master Plan Review Committee (MPRC) to solicit input from citizens and stakeholders and to oversee refinements to the draft general plan.

General Plan Elements

The draft general plan lays out policies to guide both short- and long-term decisions about Windcrest's development. The draft plan contains the following elements:

- introduction and purpose -vision statement
- guiding principles -areas of focus
- goals and policies

Schedule for Citizen and Stakeholder Work Sessions

The MPRC is conducting three identical, facilitated work sessions for citizens and stakeholders at the Windcrest City Hall Council Chambers:

Wednesday, April 16, 2014, 6:00 p.m. — 7:45 p.m.

Thursday, April 17, 2014, 6:00 p.m. — 7:45 p.m.

Saturday, April 19, 2014, 9:30 a.m. — 11:15 a.m.

Work Sessions Follow-Up

The Master Plan Review Committee will use the results from the three work sessions to revise the draft general plan. The revised draft plan will be reviewed and recommended for approval by the Planning and Zoning Commission and then approved by the City Council; in each case public hearings will be conducted to seek input from citizens and stakeholders. This process will occur over the coming months with the eventual adoption of the general plan expected during summer 2014.

GENERAL PLAN

WINDCREST

INTRODUCTION

Every city is different. Each a mixture of old and new homes, shopping centers, markets, shaded walkable streets, and busy commercial corridors. Whatever the combination, it is still a collection of people. People with different tastes, interests and resources who have settled in that special geographic area because they found employment, schools for their children or a place to retire.

What makes it a community and differentiates itself from other places is its economic condition, culture and its history. These factors and more affect the nature of a community. However, the one pivotal factor that makes a difference is the extent to which the community has guided the use and development of its environment through a Master Plan.

A Master Plan helps a community affect its growth and development. As a balance, it can be an important tool to prevent degradation of resources, maintain the commercial and economic base, provide good public facilities or improve housing stock and infrastructure.

PURPOSE

The Master Plan is the only public document that describes the community as a whole in terms of its complex and mutually supporting networks.

As a policy statement of long-term goals, it provides both a broad long-term perspective and a guide to short-term community decisions.

A Master Plan is prepared and implemented with an eye to:

- Influence and manage the development of the community;
- Coordinate public and private investment;
- Minimize conflict between land uses;
- Increase both the benefits and cost-effectiveness of public investment;

GENERAL PLAN

- **Forecast and ensure that infrastructure and community facilities are established in advance of demand and located to best serve the community.**

Master plans provide the basis for rational decision making but do not replace the decision-making process, nor take the place of the City's codes and other ordinances in establishing regulations. In applying such regulations, consideration should be given to the principles, goals and policies of the Master Plan.

The Master Plan is intended to provide guidance in the evaluation of future decisions on land use, infrastructure improvements, transportation and other issues. In addition, ordinances proposed and considered after the Master Plan adoption should be consistent with the relevant goals and policies contained in the Plan. If an ordinance establishing or modifying rules or regulations is being considered contrary to the goals and policies of the Plan, either the Plan should be reviewed and amended prior to the adoption of the ordinance, or it should clearly state those circumstances that necessitate its conflict with the Plan.

Community planning is a continuous and dynamic process. It helps the community achieve goals important to its citizens and the community at large. Over time, these goals will likely change. At that time the community must again review where they have been, how they got there and what has changed and where they want to go next.

The Planning and Zoning Commission should perform an annual review of the Master Plan principles, goals and policies and forward recommendations for amendments to the Plan to the City Council. The Commission should also prepare an annual report on development and planning activities. The report should indicate changes in current trends and appropriate laws and regulations, include recommendations for changes to the Master Plan's implementation and evaluate the City's progress.

GENERAL PLAN

VISION

The City of Windcrest promotes a high quality of life, balancing neighborhood stability, economic opportunity and responsible growth.

GUIDING PRINCIPLES

- **Preserve, protect and enhance the integrity, economic viability and livability of Windcrest's neighborhoods.**

- **Encourage a balance of new development and redevelopment.**
- **Support the implementation of the Parks and Recreation Open Space Master Plan, adopted July 25, 2012 (Resolution 2012-385 R).**
- **Provide an environment for the positive community input and collaboration in attaining the Master Plan Goals and Policies.**

The Vision and Guiding Principles require clear attainable Goals that address basic issues for Windcrest. Policies for attaining the goals must direct the City's planning and implementation strategies.

The key is to create goals and policies that Windcrest can use to measure its progress in fulfilling the vision for the future.

These goals and policies are dynamic. It is important that the entire community, citizens and organizations continue to share their ideas regarding the future.

Dear Member of the Master Plan Review Committee,

On behalf of the Planning and Zoning Commission, I want to thank you for your tireless work as a member of the Windcrest Master Plan Committee.

We know that your task as a representative of outlining the tenets of Windcrest's future was not easy. We understand the countless hours spent with residents at the neighborhood workshops and then meeting during the course of the summer to prepare your Draft of the Master Plan were done with the utmost spirit of wanting to do what is right for all.

Thank you for your commitment, patience and diligence in this effort in your revising of the Draft Plan we prepared over a year ago. It is stronger and more relevant because of your participation and allowing for community dialogue.

We will continue that effort in holding a public hearing and then forwarding to City Council for their final review and hearings as well.

Once again, the Future of Windcrest is our entire community, because of your dedication to this open process.

Sincerely,

P&Z Commissioners
